3.4 State of the labor market

In 2024, 1,062 people used the services of the Employment Service, including 941 unemployed persons. During the reporting period, 372 unemployed citizens were employed with the assistance of the employment center, including 251 unemployed. The employment rate is 35%.

To increase the competitiveness of citizens in the labor market (on-the-job training), 133 unemployed people were covered.

Public works and other temporary jobs were performed by 41 unemployed persons, namely at the Nursing Home and the Korosten City Organization of the Red Cross Society. For the period of participation in public works for 8 months, UAH 556.2 thousand was used to pay for labor, including UAH 278.1 thousand from the city budget.

In order to eliminate man-made, natural and military emergencies that occurred during martial law and their consequences, community service was organized for unemployed citizens at the city's enterprises: Municipal Production and Economic Enterprise, Korosten City Hospital, NGO Dobrotvor, and others. Over 8 months, 347 unemployed people participated in the program, and UAH 1426.9 thousand was spent on labor costs.

Vouchers were issued to 60 people to learn a new profession, upgrade their skills and obtain a new specialty in educational institutions.

33 internally displaced persons were employed, including 8 people, with compensation to employers for wages within 3 months from the date of employment in the amount of the minimum wage.

Microgrants of up to UAH 250,000 are provided to small and medium-sized businesses for business development and expansion under government programs. 16 representatives of the city took advantage of this opportunity and passed the competitive selection process to receive these grants. The grantees plan to create 30 new jobs.

There is an increase in labor migration of the community's able-bodied population abroad (Poland, Germany, Czech Republic, France) or to other regions of the country (western Ukraine and Kyiv), and shadow employment remains a problem for the labor market.

Municipal non-profit enterprise “Primary Health Care Center” of Korosten City Council

Primary healthcare is provided in full in accordance with the Order of the Ministry of Health of Ukraine No. 504 “On Approval of the Procedure for the Provision of Primary Healthcare” dated 19.03.2018.

A preliminary electronic appointment with a family doctor is available, an electronic patient card is maintained, and an electronic prescription is issued under the “Affordable Medicines” program (cardiovascular diseases, diabetes, bronchial asthma), vaccinations are carried out according to the Vaccination Calendar, laboratory diagnostics are performed (complete blood count, complete urine count, whole blood glucose, total cholesterol, rapid pregnancy tests, troponin, HIV, viral hepatitis B and C, SARS-CoV-2). We also perform instrumental diagnostics, including electrocardiography, pycnfluometry, otoscopy, ophthalmoscopy, and visual acuity measurements.

In 2023, the process of vaccination against the acute respiratory disease Covid-19 caused by the coronavirus SARS-COV-2 continued.

Also, in August 2023, the institution signed an agreement with the NHSU on the package “Support and treatment of adults and children with mental disorders at the primary level of medical care”. Support and treatment of adults and children with mental disorders at the primary level of medical care is provided in full.

Municipal non-profit enterprise “Korosten Central City Hospital” of Korosten City Council

The main activity of Korosten Central City Hospital is to ensure the provision of appropriate consultative, diagnostic and inpatient medical care to adults and children.

1. The central city hospital consists of a round-the-clock hospital with 380 beds (including 13 ICU beds), a consultative and diagnostic center (consultative and diagnostic department for children, auxiliary medical and diagnostic units (clinical and diagnostic

laboratory, X-ray department, physiotherapy department, dental department, endoscopic department, obstetric and gynecological department, etc.)

The medical reform defines the institution as a reference hospital providing emergency medical care for residents of the city and northern districts of the region. Therefore, work continues to expand the range of medical services, strengthening staffing and technical capacity. Repairs are being carried out in the buildings, and new departments are planned to be opened.

The Korosten Central City Hospital of the Korosten City Council has confirmed its material, technical and human resources capacity to provide medical services to the population under the Medical Guarantee Program (MGP) and has signed a corresponding agreement with the National Health Service of Ukraine.

School museums

School museums	Address	Description
Korosten City Lyceum Museum No. 5	11504, Korosten city, Pashynska str., 2	The local history museum "Svitlytsia of Folk Art" was created by the by the teaching staff of the Korosten City Lyceum #5 with the help of a well-known local historian, former history teacher Mykola Britsun. It is an invaluable treasure, a cultural

		<p>and artistic center that presents our region to the whole Korosten region.</p> <p>The classroom has been restored and its interior is as close as possible to a late 19th-century house. It contains antique items: tools, clothes, dishes, and furniture. The museum houses 150 exhibits. In this room, decorated with towels and old costumes, there are many materials for conducting conversations, excursions, and stories about the intricacies of folk crafts. The museum has a lecture group that conducts excursions for visitors.</p>
Korosten City Lyceum Museum No. 5	11504, Korosten city, Pashynsk str., 2	<p>The Museum of Military and Patriotic Education in KML #5 was created on the basis of materials collected by students and teachers of the lyceum about the historical events of the Second World War in our region, the events of the Revolution of Dignity in 2013-2014, the ATO participants - our countrymen, the current war, Russian aggression against Ukrainian statehood, as well as the selfless work of volunteers in our region. In 2014, the Military and Patriotic Education room was granted museum status.</p> <p>The Military History Museum is the center of national and patriotic work at the lyceum. It was established in 2010 and is updated as new exhibits are received - in 2015, 2017, 2022, 2023-2024.</p> <p>The main tasks of the school museum are:</p> <ul style="list-style-type: none"> - involvement of young people in search, local history, research work; - forming social and public experience among young people on the examples of Ukraine's historical past; - expanding the deepening of general education of young people through extracurricular and extracurricular activities; - assisting the teaching staff of the educational institution in implementing active forms of work with youth; - study, protection and promotion of historical and cultural monuments of the native land; - conducting cultural and educational work among young people and other segments of the population. <p>The museum includes 7 sections:</p> <ul style="list-style-type: none"> - “Volunteer work” - “Worthy of the glory of parents” - “No one is forgotten, nothing is forgotten” - “We remember, honor, and are grateful”

		<ul style="list-style-type: none"> - “Worthy of imitation” - “The power of the unconquered” - “Revolution of Dignity!” <p>The museum is a center of patriotic education for lyceum students. Under the guidance of the historical club and the museum's creative team, an extensive research and search work is being conducted, based on reliable facts and events that took place in the city of Korosten and the Pashyni neighborhood, as well as important events in the history of our country from ancient times to the present.</p> <p>The research and search work organized by the museum's creative team and the historical club made it possible to collect a lot of different materials: testimonies, documents, exhibits, photographs, and letters about a certain historical period.</p> <p>Today, the museum has a large number of stories from the defenders of Ukraine. Very valuable are the flags that were handed over “from the front line”, flags signed by the military, flags of volunteer battalions that existed and still exist in our country</p>

4.2 Trade. Consumer market. The number of trade objects.

In 2024, the consumer market of Korosten community continued to adapt to the difficult conditions caused by economic and social challenges in the country. However, the persistence of the unstable economic situation affects key indicators.

Retail trade turnover continues to decline, although the rate of decline is slowing down compared to previous years. It is expected to decline by 7% in comparable prices.

Headline consumer inflation slowed to 3.2%. The largest contribution to the slowdown in overall inflation came from prices for raw foods, which fell by 4.9% in March. Eggs, cereals, flour, and sugar also fell in price, while the growth in prices for meat (except beef) and raw milk, and processed foods slowed. Domestic alcoholic beverages and tobacco products rose at a slower pace. At the same time, fuel prices resumed rising, but at a slower pace than expected.

Overall, in 2024, inflation is expected to reach 8.2%, with a possible decline to 6% next year and 5% thereafter.

The population's ability to pay remains low, which slows down demand for goods and services. Inflation continues to affect prices, and food prices are expected to increase by 30%.
